KIMBERLEY PROCESS REQUIREMENTS

The Kimberly process certification scheme which has been passed into law in Liberia requires the following steps for internal control and transparency in mineral production and trading activities:

- 1. All Miners are to be organized into mining cooperatives for internal control purposes.
- There are heavy penalties for smuggling or any illicit activity in the mineral sector as stipulated by law. Illicit activity
 means transaction with unauthorized persons, conducting mineral operations without proper documentation,
 questionable activities as it relates to the mineral sector.
- 3. For transparency in mineral trade, the follow steps must be followed:
 - a) Miner gets serialized vendor forms from the Ministry of Lands, Mines & Energy/ KPC Database Office.
 - b). Miner transacts business (conducts trading) in the presence of the Mineral Inspector(s); Mineral Inspector(s) takes a copy of the transaction document(s) to the KPC Database Office in Monrovia for production data and verification. Miner retains one copy of vendor form.
 - c). The Broker / buyer takes two of the vendor forms, retains one and takes one to the exporter/dealer to whom he sells his diamonds previously bought from the miners.
 - d). The exporter/dealer takes his diamonds to the KPC Database Office where his form is verified with the Inspector's form. The Kimberley Process Certification process begins.
